23-Nov	THE RHÄTISCHE BAHN(RhB)	John Fissler <i>BSc(Hon); C.Eng F.I.E.T.;F.I.R.S.E.</i>	The Rhätische Bahn is the extensive metre gauge network of the Graubünden canton of Switzerland and is second only in mileage to the SBB in the country. This stunning network includes the UNESCO listed Albula and Bernina lines featuring the highest open air railway crossing of the Alps as well as the Rheinschlucht. The talk, utilising photos and video, takes a brief look at the history and development of the network, its operations as well as some behind the scenes matters and features steam, heritage and modern traction including the steam driven rotary plough.
14-Dec	CHRISTMAS FILM & BUFFET <b>SLEEPING CAR TO TRIESTE</b>	<i>starring</i> Jean Kent Albert Lieven	The documentary shots of the train itself are exemplary. If you are a train buff, you will greatly enjoy this crude, lumbering, noisy hunk of iron, a giant boiler on wheels, barreling down the tracks as the people inside change compartments, eat, drink and plot their petty and grand crimes.
